Weird Canada :: Intern :: Developer

Summary

Weird Canada is seeking individuals interested in creative, engaging, and forward-thinking web-development projects that will support Canada's emerging music community.

We are looking for developers knowledgeable in: PHP, CSS, Javascript / AJAX, or Ruby on Rails. The ideal candidate will have a strong passion for online media, journalism, music, and fringe-culture.

Developers will report to the Editor in Chief.

Weird Canada is an equal opportunity "employer."
